

# Edward Javier Pineda Moran

Full Stack Developer

## ABOUT ME

Full stack developer with a background in Computer Science. I work across backend, frontend, mobile and database without relying on a single ecosystem: TypeScript, .NET, Laravel, Node.js and Flutter, choosing the tool the problem calls for rather than the one I already know. I document the architecture, data model and known limitations of what I build, because a system nobody else can pick up is not finished. I care about communicating clearly and about the experience of whoever uses what I make. Additional background in networking and cybersecurity.

## FEATURED PROJECTS

### Academic and personal projects

January 2023 - Present

- **Catracho GO:** Ride-hailing platform for which I built the API, the web client and the mobile app: geospatial fare pricing, driver verification, PayPal wallet, push notifications and an admin panel. Stack: NestJS, Prisma, PostgreSQL/PostGIS, React and React Native.
- **TwinBay Parking:** Web system for parking management, billing and reporting, built on a modular architecture with reusable components. Stack: Laravel 12, Bootstrap and MySQL.
- **Fantasy:** Sports prediction web app with user groups, tournaments and automatic prize distribution based on standings, implemented on the Repository and Unit of Work patterns. Stack: ASP.NET Core, C# and SQL Server.

## PROFESSIONAL EXPERIENCE

### Software Development Internship

June 2022

Sistemas de Honduras

Desktop system built in .NET Framework for academic management at educational institutions.

- Enrollment, report card and student coordination modules.
- Automated generation and printing of academic documents.
- System delivered and adopted in production by the institution.

## TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, C#, PHP, Dart, SQL
- **Backend:** NestJS, Node.js, Express, ASP.NET Core, Laravel, Livewire, Prisma
- **Frontend & Mobile:** React, React Native, Flutter, Tailwind CSS, Bootstrap, HTML5, CSS3
- **Databases:** PostgreSQL/PostGIS, SQL Server, MySQL
- **Tools:** Git, Docker, Postman, Vite, Power BI
- **Networking:** LAN/WAN, TCP/IP, network configuration, Linux

## SOFT SKILLS

- |                       |                           |                          |
|-----------------------|---------------------------|--------------------------|
| • Clear communication | • Technical documentation | • Self-directed learning |
| • Teamwork            | • Problem solving         | • Attention to detail    |

## EDUCATION

Ingeniería en Ciencias de la Computación  
(B.Sc. in Computer Science)

Universidad Católica de Honduras (2023 - 2027)

Bachillerato Técnico Profesional en Informática  
(Technical High School Diploma in Computing)

Centro Gubernamental Álvaro Contreras (2020 - 2022)

## CERTIFICATIONS AND ADDITIONAL TRAINING

Diplomado en Gestión de la Calidad Total (Certificate in Total Quality Management)

Universidad Católica de Honduras (2027)

## LANGUAGES

- **English:** Intermediate
- **Spanish:** Native
